

Individual/Group Skills Register

We wish to establish a skills register for individuals/groups in the local area with a view to creating a vehicle for change at the railway station and forge links between rail and the local community. This could range from helping to create a more pleasant, vibrant and welcoming environment at the station to helping with event planning; with aims including increasing sustainable and active travel, boosting the local economy, empowering local residents and attracting more people to visit the area.

To achieve these types of initiatives, we are looking to bring together a diverse pool of skills, resources and talents across the local community. The idea behind this is to help build links and consensus around specific initiatives, or a course of action to address or take forward elements of the Station Travel Plan (STP) and any future masterplans to leverage benefits locally beyond the station site boundary. It is about working co-operatively for wider gains.

So, can you help in some capacity to transform the station or maybe donate resources to specific, mutually beneficial causes in partnership with the community? Can suppressed opportunities be unlocked through co-operative working?

Please fill in the details below and tick the areas that you as an individual or group feel you could get involved in supporting on a case-by-case basis. The idea is to have a preferred online platform in place to be able to communicate and discuss options going forward.

- Mentoring and training services (youth etc.)
- Food partnerships & resource donations
- Community outreach & participation
- Construction & building maintenance
- Events management & fundraising
- Office & administrative support (e.g. bid writing)
- Other (please specify) e.g. commercial set up

Name	Contact number	E-mail	Categories (place a cross in any column that you may be able to support)							
What personal or professional skills and services could you contribute generally? (e.g. marketing support, onward travel help, linking up local suppliers etc)										
What subjects are you passionate about addressing or exploring in relation to the local area and the station going forwards? (e.g. cleaning up the local area)
